Emirates Pilot Requirements

Here are the important criteria...

- **Age:** The minimum age requirement must be 18 years old.
- **Height:** The minimum height requirement is 160 cm (5'3")
- **Education:** As per the latest updates, Emirates Airlines requires its candidates to have a minimum education in high school and preferably a degree in aviation, engineering, or a similar field.
- **Licenses and Certifications:** The first one is the **Commercial Pilot License (CPL)** which is a foundational license required for all commercial pilots. Another one is **Instrument Rating (IR)** - it is essential for flying under instrument flight rules. Lastly is the **Type Rating (TR)** which specifies the type of aircraft you wish to fly.
- **Minimum Flight Hours:** A pilot needs to have at least 3000 hours of flying experience when opting for command positions and 1500 hours for multi-engine jets. Having a multi-crew experience is also highly valued.
- **Flying Experience:** Type ratings on Boeing 777 or Airbus A380 are highly advantageous since these are the main aircraft in Emirates' fleet.
- **Medical Fitness:** All pilots must hold a valid Class 1 medical certificate. This ensures you meet the stringent physical and mental health standards required for the role.
- **English Proficiency:** English proficiency to ICAO Level 5 or higher.
- **Soft Skills:** Attaining a positive attitude at work, working like a team player, having effective problem-solving skills and an awareness of cultural sensitivity is a good thing that helps you put up a great professional character that can work in your favor.
- **Visa and Relocation:** Must be willing to relocate to Dubai, UAE.
